Budget Committee of Student Government

WORK EXPERIENCE:

May 2023 – Jul 2023 COCA-COLA BEVERAGES FLORIDA
Master Data and Information Governance Intern

- Data architect and governance work in Python for a data analysis project to reduce data redundancies in customer data.
- Started an automation process for improving forecasts using Databricks and Snowflake
- Pulled data from SAP database and learned some PowerBI on downtime.
- All work was Excel-heavy and aided with some R programming.

May 2022 – Aug 2022 AUTO OWNERS INSURANCE
Premium Auditor Internship

- Audited insured's records to determine the proper exposure classifications and premium basis to provide reports and recommendations to Underwriting.
- For assigned policies, determined the proper exposure classification, premium basis and scope of operations using observation, discussion with insureds and agents, and the review of accounting records among other work in Excel.
- Participated in Actuarial meetings and in-person audits for businesses.

June 2019 – May 2022 BEST BUY
Consultation Agent

- Consulted daily with customers to understand their needs and explain the team's diagnosis, repair, and communication processes in layman terms to meet their needs.
- Frequently delegated and managed lines of customers when work became fast-paced.
- Used my expertise to promote and sell Best Buy's service package.
