

ISAIAH SARRIA

Haines City, Florida (Orlando metro)

[305-986-1691](tel:305-986-1691) | iesarria1@gmail.com | [LinkedIn](#) | [Github](#)

EDUCATION AND ACTIVITIES:

B.S. in **Business Analytics** with minor in **Supply Chain & Logistics** 05/24
Florida Polytechnic University (FPU) GPA: 3.9

Student Researcher of causes of Cartel Formations | Founding Chief of Staff at FPU's Data Science and Business Analytics Association | Vice Chair of the Audit and Budget Committee of Student Government | Strong coursework in Data Analytics, Data Visualizations, and Data Models using business intelligence tools (Minitab, Tableau) and programming (R, Python, SQL, Stata).

WORK EXPERIENCE:

May 2023 – Jul 2023 COCA-COLA BEVERAGES FLORIDA
Master Data and Information Governance Intern

- Data architect and governance work in Python for a data analytics project to create an algorithm to reduce redundancies in customer data for a golden record as a new strategic initiative. Code and PowerPoint presentation to executive board visible in portfolio.
- Started an automation process for improving forecasts using Databricks and Snowflake.
- Pulled and interpreted data from SAP database and learned some Power BI on downtime.
- All work was language scripting and Excel-heavy, primarily Python and some R.

May 2022 – Aug 2022 AUTO-OWNERS INSURANCE
Premium Auditor Intern

- Audited insured's records to determine the proper exposure classifications and premium basis to provide reports and recommendations to Underwriting.
- Determined the proper exposure classification, premium basis and scope of operations using observation, discussion with insureds and agents, and the review of accounting records among other work in Excel to understand business data.
- Participated in Actuarial meetings and in-person audits out of curiosity.

June 2019 – May 2022 BEST BUY
Consultation Agent

- Mastered customer service by consistently facing clients to understand their needs and explain the team's diagnosis, repair, and communication processes as a liaison.
- Led a team with management of tasks via high pressure ad hoc planning.
- Used my expertise to promote and sell service packages, record data, and troubleshoot.
